

Parent information via the Kita-Info-App

Dear parents,

we would like to let you know that in the future we will inform you about news and appointments from our facility with a modern, up-to-date app.

In this way we are making an important contribution to environmental protection, as we are saving enormous amounts of paper and printer cartridges.

However the best thing is: Thanks to the better organization, we save time that directly benefits your children.

Important: The app is not intended to replace the communication with the parents - please contact us as usual, we will be happy to talk to you!

Until the start of the new kindergarten year, we will share the information by e-mail and additionally in the app. Parents of preschool children no longer have to register!

We have decided to use the Kita-Info-App of Stay Informed GmbH from Merzhausen (Freiburg im Breisgau).
